We ensure absolute safety, as this is the first and foremost matter to consider, with the \*Auto Belay System to watch over our climbers, instead of manual belaying.

\*(Auto belays are safety tools that allow to climb roped walls without a human belayer. Instead, the climber clips onto an auto belay device, which connects to the top of the wall. In case of losing balance, falling or upon finishing a climb, the Auto Belay slowly lowers the climber to the ground)
